

Full print functionality

The latest HP LaserJet printer software (v5.3) for HP LaserJet printers is included in Mac OS X 10.6 and also available via Apple Software Updates. You do not need to download or reinstall any HP software for full printing functionality.

Please do not reinstall drivers from original HP LaserJet CDs or web downloads from previous Mac OS X 10.3, 10.4, or 10.5. Older software is not compatible with Snow Leopard. The latest Mac OS X 10.6 compatible HP print drivers are included in Mac OS X 10.6, and you'll experience the best performance and functionality if you use the latest HP software.

To find the version number of your HP LaserJet software: Under the Apple icon menu (located in top left toolbar at Finder level) select 'About this Mac'. Click on More Info button to launch System Profiler. Select 'Printers' from the left column inside the Hardware section. The HP LaserJet PPD version number will be listed, v5.3 is the latest software for Snow Leopard compatibility.

For supported HP Mono and Color LaserJets in Mac OS X 10.6 Snow Leopard please click here:
